

# chota motu

play live learn

...giving children a space  
to call their own

Chota Motu is an affordable, lightweight, flat-pack desk and seat. It sparks imagination and play by providing the child, ages 5-7, with a sense of comfort and personal space as he or she grows.

Through simple folds of the laminated cardboard, and the help of a parent, a child can have endless adventures with Chota Motu. It transforms from an elephant, encouraging studying or adventure play, to a comfy floor seat that creates an enclosed space where the child can lounge. Chota gives children a space to call their own.
